## PLAN OF EXAMINATION

The competitive examination comprises two successive stages:

- I. **Civil Services (Preliminary) Examinations (Objective Type)** for the selection of candidates for Main Examination; and
- II. **Civil Services (Main) Examination (Written and Interview)** for the selection of candidates for the various services and posts.

The Preliminary Examination will consist of two papers of Objective type (multiple choice questions) and carry a maximum of 400 marks in the subjects set out in below Section. This examination is meant to serve as a screening test only; the marks obtained in the Preliminary Examination by the candidates who are declared qualified for admission to the Main Examination will not be counted for determining their final order of merit.

The number of candidates to be admitted to the Main Examination will be about twelve to thirteen times the total approximate number of vacancies to be filled in the year in the various Services and Posts. Only those candidates who are declared by the Commission to have qualified in the Preliminary Examination in the year will be eligible for admission to the Main Examination of that year provided they are otherwise eligible for admission to the Main Examination.

Candidates who obtain such minimum qualifying marks in the written part of the Main Examination as may be fixed by the Commission at their discretion, shall be summoned by them for a Personality Test (interview for). The number of candidates to be summoned for interview will be about twice the number of vacancies to be filled.

Marks thus obtained by the candidates in the Main Examination (written part as well as interview) would determine their final ranking. ## **INTERVIEW TEST**

- The candidate will be interviewed by a Board who will have before them a record of his/her career. He/she will be asked questions on matters of general interest. The object of the interview is to assess the personal suitability of the candidate for a career in public service by a Board of competent and unbiased observers. The test is intended to judge the mental caliber of a candidate. In broad terms this is really an assessment of not only his/her intellectual qualities but also social traits and his/her interest in current affairs. Some of the qualities to be judged are mental alertness, critical powers of assimilation, clear and logical exposition, balance of judgment, variety and depth of interest, ability for social cohesion and leadership, intellectual and moral integrity.
- The technique of the interview is not that of a strict cross-examination but of a natural, though directed and purposive conversation which is intended to reveal the mental qualities of the candidate.
- The interview test is not intended to be a test either of the specialized or general knowledge of the candidates which has been already tested through their written papers. Candidates are expected to have taken an intelligent interest not only in their special subjects of academic study but also in the events which are happening around them both within and outside their own state or country as well as in modern currents of thought and in new discoveries which should rouse the curiosity of well educated youth.

## STRATEGY

### Step 1: Important Decisions

1. What is required to get the post?
  - Devoted study
  - Good writing style
  - To the Point Approach
  - Basic command over English and Aptitude
  - Good grasp over current affairs
  - Healthy competitions and feedbacks.... i.e. critical self assessment
  - Quality material and guidance
  - Patience and Self confidence
2. When to start the preparation? (for the next year's Preliminary exam in August, followed by Mains)
  - One should start preparation around one year prior to the exam. If not possible, at least eight months prior to the examination i.e. latest by November.
  - If you are going to prepare immediately after graduation, then don't waste time, start immediately after your final exam.
  - If you are going to study while working, it is possible but start earliest. Don't delay to start otherwise you will experience time crunch later.
  - If you are preparing during graduation, generalized plan cannot be suggested, so discuss personally with us to evolve an individual plan.
3. How to start preparation?

If you have joined Synergy, just follow the curriculum of the batch, you will reach the destination.

If you are starting on your own, to begin with follow the initial steps.....

  - Analysis of previous question papers
  - Understanding of Syllabus
  - Reading of basic study material
  - Start writing... easy questions
4. How to select the optional subject?

This is very important decision. Fortunately in the new format GS is much more important. So don't take this decision at the beginning. First start preparing for GS and then after some time take this decision. Because in four GS papers you will be introduced to variety of optional subjects like History, Geography, Public Administration, Political Science and Sociology. This will help you to determine your inclination to a particular subject. Every subject has its own demand (i.e. thinking pattern, writing style, presentation techniques etc). Your personality should suit to it.

Following are some basic criterions...

  - Interest and understanding in the subject (about which you will come to know when you study for GS Mains)
  - Analysis of the syllabus and previous years' question papers of the shortlisted subjects
  - Writing style and presentation techniques suitable for that particular optional (about which you will know once you start writing for GS and essay)

- Thinking Pattern expected for a particular optional (you will come to know about yours after you prepare for GS.)
  - Availability of study material
  - Availability of guidance
  - Weightage of optional in GS
  - Graduation background
- Apart from this, some give importance to the length of the syllabus.... Which is an unfound criterion

### **Synergy strategy:**

While preparing for GS Mains, you will be also preparing for History, Geography, Public Administration, Political Science, Sociology etc. It will help you in deciding your interest in a particular optional subject properly.

Rather than selecting an optional without having knowledge of other subjects or without knowing your own writing and presentation styles and thinking patterns, it is better to delay this decision. It will prove more informed and rational decision afterwards.

This opportunity has been presented by the new pattern, so avail it.

#### 5. How to manage other examinations like MPSC along with UPSC?

At the beginning it is better to concentrate on UPSC alone as it will cover major portion of MPSC. You can dedicatedly prepare for MPSC for some time prior to prelims depending upon time table (unfortunately this keep changing every year)

#### 6. Can I prepare while working or pursuing graduation?

Yes you can.... You need to be mentally very strong for the whole year to manage everything. A break of two/three month's in-between will bring doomsday...

We conduct weekend batches. Compared to regular batches these are having same faculties, total number of hours of teaching, tests, study material etc. We are proud to share that in 2012 result we have three selections from weekend batch.... Rajat Bansal (IAS), Devraju Shiva (IAS), Anshu Varma (IRAS).

## **Step 2: FAQs about Synergy**

#### 7. Why should I join Synergy?

Synergy means 'coming together and creating something new'.... Synergy as an institute is based on solid support of the alumni. Majority of students join synergy, not because of promotional activity but because of mouth publicity.

We are the LEADRS in GS and have unparallel track record in optional subject results e.g. All India History Topper, Sonal Sonkawade (Marks – 396).

All former students are happy with Synergy due to

- Good track record: 100 plus students selected as IAS, IPS, IFS, IRS, etc. (Synergy claims only those students who have joined the batches at Synergy, as you are here to join batches - not the students who have taken a mere mock interview)
- Expert and easily accessible faculties who give personal feedbacks

- Timely coverage of the syllabus
- Comprehensive printed notes (More than 5,000 pages for GS)
- Exhaustive test series- both prelims and Mains perspective (about 50 sectional + comprehensive tests conducted over the year)
- Comparative results for Prelims Test Series along with individual performance graph
- Special emphasis on writing and presentation techniques
- Emphasis on Approach building
- Special focus on Current Events... “PANORAMA” batch and notes are considered unparalleled in India. Your understanding of current affairs will be incomplete without Panorama. (about 50 weekly booklets on current affairs are provided)
- Calm environment (though situated in the heart of Pune City)
- Situated in Appa Balwant Chowk (where all book stalls are located)
- Easy availability of accommodation and study rooms nearby
- Quality infrastructure- AC classrooms, spacious benches, modern audio system, reserved parking space, etc

8. Which batches to join?

(Schedule of batches has been added at the end.)

- It is advisable that you should join “Synergy Special Batch” if you are planning to choose one of these four optional subjects – Public Administration, History, Geography, Sociology
- First you should join “Integrated Batch covering GS Mains + Prelims, Essay, Current Affairs” starting from 1 October
- Then after selecting optional, join “optional Batch” starting from October.
- Depending on your level of aptitude, join aptitude batch in January.

9. Who are the Faculties at Synergy?

All the faculties at Synergy are having in depth experience of all three stages of examination, including interview. There is a blend of senior and junior faculties so that with experience, contemporary demands will be integrated with.

There are four types of faculties...

- Base faculty- includes Atul Lande, Sujeet Rukari
- Core Faculty- includes faculties who are tied with Synergy and always ready to guide you whenever you need them
- Visiting Faculty- Synergy is building a strong team of faculty drawn from both administration and academics. The combination enables faculty members to leverage their knowledge & experience in accordance with the requirements of Syllabus.
- Post Holders as faculty- Synergy has advisory board which includes senior administrators working in different states and 100+ alumni. They keep visiting Synergy to share their experiences both of examination and work. This provides an opportunity for all to draw inspiration.

### Step 3: General Queries

10. Is Library necessary for UPSC preparation?

At Synergy, detailed notes are provided for all topics of the syllabus. In addition to this, reference list is also provided. Students are expected to buy these books for ready reference. If any book is too costly or out of print, it can be availed from the Synergy Library.

11. What about accommodation, study rooms?

For girls, hostel facility with limited seats is available in the premises only. Synergy is situated in the centre of Pune city with many accommodation and study room facilities available in the vicinity.

Within the premises you can study, for which we don't charge any fees.

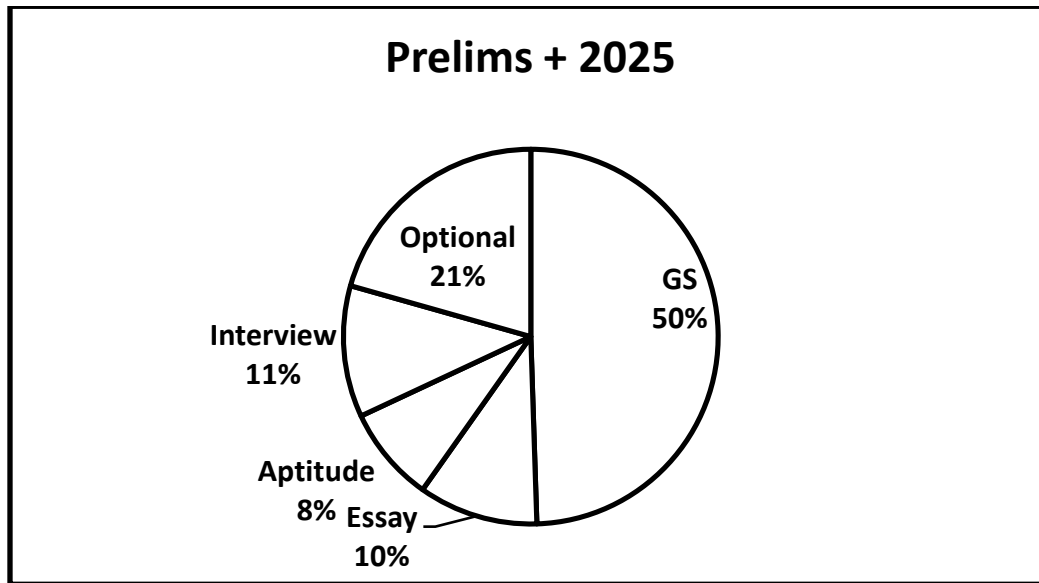

#### Step 4: comparative weightage for all subjects

Let's consider the marks which are counted for final ranking (Mains + Interview) first,

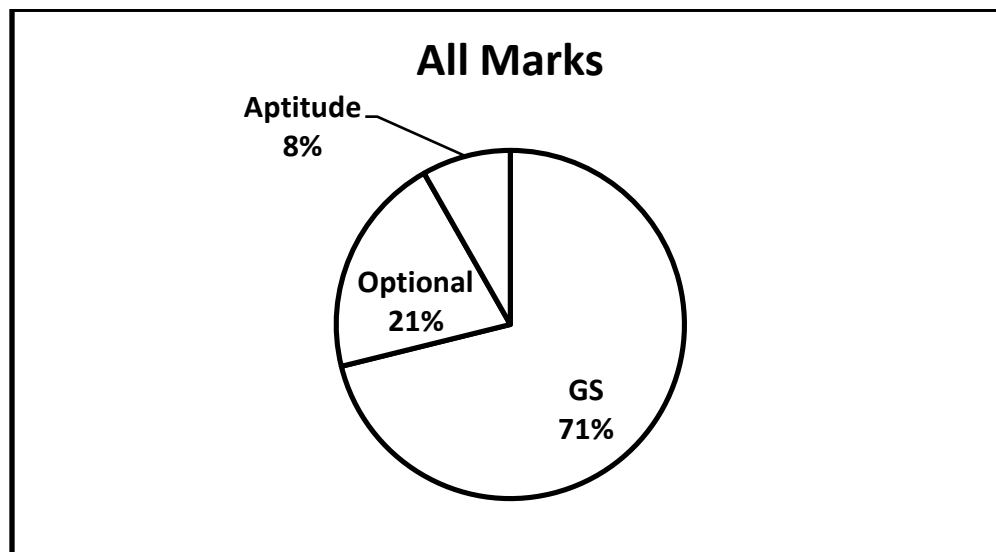

Now, if Prelims is also added,

We can rearrange all this information in following manner as well...

1. **GS Based Marks**= GS Prelims, 200 + GS Mains, 1000 + Essay, 250 (Essay means Mains GS and writing style) + Interview, 275 (It means Mains GS and communication style) = **1725**
2. **Optional Based Marks = 500**
3. **Aptitude based Marks = Prelims Aptitude, 200 = 200**

**Step 5: Schedule of Study (Considering that your first stage exam (Preliminary) is in next year May)**

Month	Activity	Why?
October- March	Preparation of GS Mains, Current Affairs, Essay	Its compulsory
		It has highest weightage
		It creates strong foundation for GS Prelims, Current Affairs and Essay
September	Decision 1: What will be your optional Subject?	
	Decision 2: What is level of your aptitude paper?	If you are weak here, you should start its preparation from October itself. If you feel comfortable, you can start it from December onwards.
October- January	Preparation of Optional Subject, Current Affairs	
	Preparation of Aptitude	Only If required
April-August (Preliminary Exam)	Prelims (Both Papers), Current Affairs	Around 60 % syllabus of Prelims GS will be covered while you are preparing for Mains, remaining syllabus you can cover until March.. and then revision along with test series
September- December	Remaining Syllabus, Current Affairs	If any... for all subjects
	Revision, Answer writing Practice	Mains answer writing practice is essential as it is the only link between you and UPSC. UPSC doesn't know you personally i.e. for how much time you have studied or how many books you have referred. Interview call and final ranking depends upon your mains answers and score.

**For example, if your target is 2014 Exam:**

1. September 2013 – March 2014: prepare for Mains (GS: June – Sept, Optional: Oct - Dec)
2. April 2014- August 2014 (Preliminary exam): prepare for Prelims
3. September 2014 –Dec 2014 (Main exam): Revision and answer writing practice for Mains

Thus, even though the Main exam is second stage, you prepare for it before the first stage i.e. Preliminary exam due to the reasons listed in above table.
