a synergy study point initiative

more than a website, it's civil services insight.

As the focus of present Online Education is only on the popular examinations like CAT, CET, JEE etc., we believe, there is a roaring gap in this sphere, in terms of, meeting the concealed requirements of other educational fields by getting connected to various advantages that is offered by "INTERNET (World Wide Web)".

Since, INTERNET continues to penetrate into our daily lives, we come across a plethora of "Online Education Initiatives" boggling our mind further.

This is rather a constant search to right one stop-solution to extinguish our thirst for online, as it is easy-to-access-absorb-and download materials.
